

Submitter: John Waddle

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I totally support driving my UTV SxS in town and on public roads. I'm for adding turn signals and horn to the vehicle. I know it is allowed in Utah and Arizona as I have taken trips to these states and ridden. I also feel that it would bring more tourism to the state, bringing in money and support. We past car and truck prices for these vehicles, insure them, then trailer them miles and miles to ride them. I think it is time.
