Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I would gladly register my SXS and make it street league in order to ride on legal highways in Oregon this would be be beneficial to the state as it would bring in registration fees and be beneficial to the economy as it would generate revenue for gas stations restaurants hotels grocery store and more. After spending 12 winter in Arizona I've seen first hand how being able to ride on legal highways has been a plus for their economy and how it keeps riders more spread out instead of being over crowded in staging areas and campgrounds.
