

Submitter: Jeff Pedersen

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

These spaces have always been and should always be lands free for the public to use. The fact that these spaces have become so polarized is sad at best. They speak about wanting to protect the lands but only allow specific travel by specific groups. It's a popularity contest and that is not how these decision should be made. It should be based on what is best for all.
