Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I am a proud Oregonian and an avid off road enthusiast for more than four decades. I have passed this hobby and enthusiasm for the outdoors to my wife and children.

I feel as if Oregon as a state is missing the boat on tourism and possibilities for funding that may help many communities across this great state. As an enthusiast I know and have met so many great people in Oregon, and many states that are willing to take time and money out of their lives and vacation times to help keep Oregon clean and well kept for all Oregonians. Please take in what the good folks across this state have to say to help this state move forward in ways that can make Oregon more sustainable and beautiful for many generations to come.
