I enjoy my time I spend in Oregon riding my UTV. I spend a minimum of three trips going to Oregon yearly. I'm able to drive my UTV currently where I live. Tourism is important to all cities and states and Montana and Idaho have seen the benefits of letting UTV's to use the road. I truly believe Oregon could see the same benefits. I hope to see this one day because I'm looking to retire in the next 4 years and being able to ride my UTV on the roads will help me in making my decision on where I retire.

Thanks
