Measure, Appointment or Topic: HB3226

I OPPOSE [HB 3226].

[HB 3226] appears to tighten up regulations but adds to an increase in regulations pertaining to pharmacy benefit managers.

The cost of and Funding source(s) of this program to the dispensing of pharmaceuticals is not discussed.

[HB 3226] appears to be a "good-step" in the right direction. Are the additional regulations going to be deleterious to the cost of and therefore access to medicines?

Any additional regulations to codify "bean-counters" are going to drive-up costs to the consumer.

The cost to the taxpayers to provide for the ability of the Department of Consumer Services to administer and audit the "new regulations" was not discussed.

The ailing public needs to know more information than [HB 3226] is willing to divulge.
