

Submitter: Elaine Zech

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

State Bill 916 I oppose very strongly. It is state supported voluntary absence from jobs that is not in the best interested of our society as a whole. It will amount to more strikes and perhaps longer duration and will be very harmful to businesses, health care providers, schooling for our children, not to mention that it benefits only a few constituents.. It will open a can of worms.

It will be very costly to the tax payers. People vote to have unions represent them and pay union dues. These union dues are meant to provide some financial relief if the members vote to have a strike. Financial support for workers should come from the union. State unemployment support Striking workers is just plain BAD...Elaine Zech, registered voter in Oregon for more than 35 years.
