

Submitter: Ann Wilson

On Behalf Of:

Committee: House Committee On Behavioral Health and Health  
Care

Measure, Appointment or  
Topic: HB2540

Greetings.

I am writing to you in enthusiastic SUPPORT of this HB 2540. Given the escalating costs of just about EVERYTHING these days, this bill would go a long way toward lifting some of the burden of the cost of health care, especially for those who shoulder the burden of high deductibles. As a retired physician, I frequently had patients who had such ridiculously high deductibles that many of their visits had to be paid out of pocket, resulting in a substantial financial drain on their families budget. If this bill becomes law, it would go along way toward lifting yet another burden from good, hard working Oregonians. I urge you to do everything you can to get this bill over the finish line.

Very sincerely yours,

Dr. Ann E. Wilson
