Wildfire

Measure, Appointment or
Topic: SB769

We have had cougars right in the town of Veneta, so many folks have been having their livestock, pets, being taken. The deer population has been taken down to almost non existent, we need the hounds back to even make them afraid or Leary of people as there is so many now they have lost their fear of humans. They need to be controlled to bring back the balance of nature
They have gotten so there's no fear, going into barns, sheds, taking or just thrill killing livestock,
