

Submitter: Lester Sitton

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

I am writing to support SB 769. The cougar population locally as well as statewide has been on a steady increase in recent years and this bill would allow counties to address the number of cougars within a given county on a smaller scale than a one size fits all for the whole state. Having had past predation problems with cougars on our livestock as well as having friends who also have had cougars kill livestock i see this as a viable option to manage cougars at a more local level.

Thanks for your consideration,
Lester Sitton
