

Submitter: Theresa Amundson
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

I support this bill and feel it would help us to be able to safely explore our state so much better and stage and have much safer parking and less stress on exiting stageing areas so in the long run the state would save money on up keep of the existing area and make communities more accessible for food fuel and lodging with our sxs . Please make this bill happen . Theresa Amundson
