

Submitter: Hillary Brobst

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I support this for many reasons. These machines are capable of handling poor weather better than most of the vehicles I encounter on a daily basis. We would gladly pay to drive them on the roads to easily get to areas that are not connected by trails. I feel safer in my side-by-side or On my quad than a car in most occasions.
