Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I believe allowing OHV's on the street is a good idea. I live in Lakeside, OR, and we have had great success with our OHV route to the sand dunes. It has been proven in many communities across the state that this kind of access is a good thing. With the support from Coos County Sheriff's Office, we have had very little trouble with OHV traffic. It seems all users of the route understand and appreciate what it means for them and the local economy. I fully support this measure and believe it will be good for all parties. Thank you.
