Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3155

Is there a reason not to allow this >>>. One that makes sense and can be justified to satisfy all those of us that think this should pass! How wonderful to have this option to reach our destination. This sport provides millions of dollars to our economy and being able to access areas by road could be adding more funds to the small business, or large>>that we may utilize along the way. If you are asking the public, if you were to take a vote.....it WOULD be unanimous to support and say YES: why not, what's to loose but much to gain  
Great PR also fir you and the public. Thank you.
