

Submitter: Roger Schultz

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

Please support HB 3155.

In our rural areas many communities allow UTVs, Side by Sides, to travel on city streets. Most of our forest roads, whether private or public timberlands allow UTV access. Access to these roads and communities is via public highways, both state and county maintained. Allow UTVs, with proper equipment to travel these roads. Safety equipment and appropriate driving is a must, as well as Liability Insurance. Many UTVs are already traveling Oregon's rural roads and highways. We need to make this a legal activity. Other states already allow UTV traffic on highways. Oregon needs to keep up with the times and open roads and highways to Off Highway Vehicles.

I urge you to pass HB 3155. Thank you for your service to All Oregonians.
