

Submitter: Jared Mikoleit

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

My name is Jared mikoleit I support and would like to see the ohv on road ways bill passed. People in towns who don't need to commute long distances or just going to the store would benefit from this using less gas with rising prices and in bad weather ice/snow these vehicles are easier to control and safer to use then normal cars trucks and suv. They all have the same exhaust/emissions systems as a norma street legal motorcycle nothing is different from a sport bike or harly davidson to a sxs or atv eccept one is stamped off road or on road being the only difference. There are multiple states accross the country that allow registered ohv vehicles on roads with proper equipment and have no issues so i think it is time oregon joins them. Thank you and I hope this helps in the decision
