

Submitter: Sue Craig  
On Behalf Of: Oregon Unitarian Universalist Voices for Justice  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB685

Thank you all for your time and consideration of this issue.

We are totally in favor of transparency by the gas industry. People who have gas piped into their homes, need to know of this highly volatile substance and how it can effect their homes, and lives. Please put this into law as quickly as you can. Ours, OUVfJ is a statewide group, and as such we are concerned about this statewide issue. Thank you. Sue Craig, President of Oregon Unitarian Universalist Voices for Justice.
