

Submitter: Kevin Bernhardt
On Behalf Of: My self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

I have been riding since 1986. We have always have some type of off road vehicle. I have had the pleasure to ride in Montana and Utah and Nevada and Arizona. All of these states have the ability to ride on the public streets and roads. But with certain restrictions. Most of the newer Side by Sides and quads have most of the required things needed. There are several companies making blinkers kits for all of them. I strongly support giving people the opportunity to ride them on the streets and roads. Thank you Kevin Bernhardt
