

Submitter: John Rickenbach
On Behalf Of: My family and hundreds of other people I know
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

This measure would allow oregonians including handicap people another way to access to the outdoors. It would be a great boon for restaurants and shops in rural oregon that are close to USFS riding areas because of the increased traffic of UTV riders. As a volunteer rural firefighter, this would allow us to use our POV or station UTV to respond to wildland fires that are frequent in our area.

Thanks for your consideration of this measure. Please support this measure.
