On Behalf Of: Columbia Gorge sxs Club
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

Hi greetings from the Dalles OR.

Here many of us about 200 + folks have sxs and we use them as much as we can around hood river MT.hood. It would be amazing if we could use them on the road. We have a ranch and it would be fun for the kids to ride in them to go to costal to get supplies or even our dirt road. Sometimes when we add new parts we have to test drive them to.. police here are very nice and neighbors too but that is us asking before we test drive it. It would be great during snow storms to gather supplies and move snow. We spend thousands on making them look nice. It would be great to express what we build to the public. I understand that there will be laws and we will respect that. I as a group leader will enforce them too. If it also helps our county maybe if passed you can do a tax yearly on them? Besides the dmv. You know everything usually is about money and if we're on government and city roads might as well find a way for us to pitch in money. Even if no roads get fixed at least I know I would be happy to pitch in to be apart of the community more.

Thank you and have a wonderful day!
