

Submitter: Caleb Gehrig

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I live in rural Oregon. Allowing the lawful use of registered atv/utv and dirtbikes opens up additional opportunities for our community to enjoy the outdoors we are surrounded by as well as providing additional revenue for the DMV to collect money from the sales of Plates and registration. There is an entire community of dual sport rides who find it hard to register their bikes in Oregon if they didn't come from factory as a dual sport so what do they do? They register them in other states where it is allowed and do it anyway! Why not add back to our own state systems and funding. Thank you.
