

Submitter: LaVonne Rawe

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

We live in a farm and community that uses farm equipment every day all day long. Also hunting and fishing and logging. Not only with this help with those communities, but I believe that even in an emergency situation, this would be an asset for lives. I do believe that there needs to be training and licensing for these vehicles, but I also think that there should be training and licensing for bicycles as they are on the road as well.
