

Submitter: Rick Curtis  
On Behalf Of: Can Am Maverick Trail Facebook Group  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3155

My wife and I are retired and travel to many places in Oregon to ride our ohv. Many times we have to carry extra gas because we're not able to drive to a gas station for gas. If we were able to drive to town we would go through some of the stores or some of the points of interest and help support the community. Being able to drive the roads will also help when there are no connecting trails. I agree that all ohv's that want to operate on the road should have the proper equipment that will help make them safe for road use. Overall with the passage of this bill it will help every community with the influx of money that visitors will contribute while staying there. My wife and I sincerely hope you pass this bill.
