

Submitter: Kevin McCadden

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

As a science educator and avid sportsman I have been following local wildlife management closely for most of my life. With that being said, I have seen many mistakes over the years. One of those mistakes being the inability to manage predators properly, especially cougars. Mule deer herds in particular have been decimated over the course of the last 20 years. I support this bill because I believe in functional management and giving local government the power to make their own decisions.
