

Submitter: David Daniels

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I use my UTV for multiple things. Yes I like to go to the dunes and have fun with it, but me and my father also have an offroad recovery and mobile mechanic business. If I'd be able to drive my UTV to the job site or whatever the case may be it would save a bunch of time and also save the people I'm trying to go save and/or recover. It would benefit me and my community tremendously. Thank you.
