Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

I strongly support this bill because it provides greater freedom and convenience for responsible all-terrain vehicle (ATV) owners like myself. Allowing Class I, Class III, and Class IV ATVs to operate on highways (excluding interstate highways) will give me more opportunities to safely enjoy my vehicle while also benefiting from increased access to essential services, local businesses, and recreational areas. As long as the vehicles meet necessary equipment standards and are properly registered, this bill strikes a perfect balance between safety and accessibility, offering a practical solution for ATV enthusiasts without compromising public safety.
