

Submitter: Ron Young
On Behalf Of: Excel Northwest
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

Hello

I am in 100% support of HB 3155. This would bring a huge amount of revenue to the State of Oregon. I live in Central Oregon and rely on my UTV with a snow plow to plow snow during the winter months for survival. Being able to drive the SXS to and from different locations would be a huge benefit and a lot safer than loading and unloading in the freezing conditions. During the summer using the UTV to travel to different fields on the roadways would also be huge.

Please pass HB 3155

Thank You!!
