

Submitter: Casey Earnest

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I'd like to support this, as long as everyone did street legal kits it could bring in a lot of group rides and could grow rural economies with more sxs friendly rides getting lunch, fuel ect, that we normally can't do because of no street legality... also could be more convenient for farmers and ranchers to operate these with no legal restrictions on backroads.
