

Submitter: Brett Stewart

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I live in Utah and I worked on legislation dealing with this same exact issue, street legal ATV or UTV on public-streets. Originally the legislatures, cities and towns were very against it and then they realize it is not an issue at all, In fact they commented they should've supported it many years ago. Please allow this legislation to move forward and become law. I recommend following the same language as Utah, it has been fine tuned several times and I believe it is as good as it gets. Thanks Brett Stewart
