Sean Rawe

On Behalf Of:

Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB3155

I think we should have a right to run out utvs on the road it will bring more revenue to the state with road tax. They are just as safe as a motor cycle if not safer. I believe as long as there street legal and abide the law they should be allowed to run down the streets. If you allow this with rules I think the people will be just as safe as a motor cycle if not better protected and safer
