

Submitter: Carlos Cordero Martinez

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

My names Carlos, live In a small town on the coast brookings Oregon, near the ocean to enjoy views and near the mountains to get into the scenery, I support this measure in wanting to make OHV vehicles street legal, in some sources they make become use-full in these small town on the coast where some may use them for short work drives or in occasions of bad weather, for instance using something that can drive in more terrains and be legal on a road with the correct procedure and approvals would be nice, Saving space going places and being more mobile in unsafe situations for a regular car or truck to drive in. Helping each other out in places to rescue someone if needed some an event where to happened .
