RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

Hospitals should be managed with the safety of its staff and the populations they serve as the priority. I can understand funding issues but the waste of resources in the attempt to break a union is unconscionable.

I support HB2792 shining a light on mismanagement of finances in service of a power move. The dollars spent on replacement health workers rather than negotiating a fair and reasonable settlement points to an egregious lack of ethics. Transparency is more than necessary.

Thank you for accepting my testimony and I look forward to your support.
