RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

As an employee of Providence, I'm constantly being told by mid level management about financial constraints of the hospital and why we need to be finding ways to make more money, and yet there's no way to hold those making the greatest financial decisions accountable. This bill provides transparency needed for those that create the revenue, and live the mission, with a cogent rebuttal for the financial state of the organization and the ones responsible for creating the predicament of their own doing.

Thank you for accepting my testimony and I look forward to your support.
