RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

I support the bill. We need to know how much money hospitals use when we go on strike. The hospitals should give that money to the nurses that way we don't have to strike. Our patients complains a lot when Agency nurses are taking care of them. Patients need continuity of care with the nurses they know and trust for their recovery.

Thank you for accepting my testimony and I look forward to your support.
