

Submitter: Chad Moore

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I support HB 3155 because I am tired of trailering my UTV to trail heads. It also helps the economy in communities close to these trailers heads. This fact has been witnessed in Lakeside OR, where riders can go to the grocery stores and restaurants in their machines. Oregon's DMV revenue would increase substantially due to registration on these machines. As someone who has been to Utah knows these machines are all over town driving all over major cities without issues.
