

Submitter: Myong O

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB685

My name is Myong O and I have lived in the Brooklyn neighborhood in SE Portland for over 20 years. I recently learned that NW Natural has been adding hydrogen to our gas line and I am extremely concerned about this for many reasons.

Transparency is first and foremost in building trust with customers and they have not done that. I'm asking that NW Natural and all public utilities be required to obtain authorization from the PUC and notify their customers of the health and safety risks involved in hydrogen blending.

Thank you,  
Myong O
