RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

I am writing to express my strong support for house bill 2792 that would require hospitals to publicly disclose the costs associated with recruiting and compensating replacement workers during strikes or lockouts. Transparency in this area is essential to ensure accountability in how healthcare institutions allocate their financial resources, particularly when these expenditures may impact patient care and community trust. Understanding the true financial implications of these decisions can provide valuable insight for policymakers, healthcare professionals, and the public.

This house bill 2792 will promote fiscal responsibility and helps highlight whether funds are being used effectively to support sustainable workforce solutions rather than temporary measures that compromise care quality.

I urge you to support this legislation to help prioritize both the wellbeing of healthcare staff and the patients they serve.

Thank you for your attention to this critical issue.

Sincerely,
Cody Turner RN, CRRN
