RE: Support for HB 2792

To the House Committee On Labor and Workplace Standards,

As a nurse who has been on strike, and is constantly been told by the organization of employment that they cannot afford to pay a fair wage, and provide adequate benefits, I think it would be eye-opening to the public to see how much money they spend on replacement workers in order to fight giving a fair contract. This transparency will help to even the playing field between employers and employees.

Thank you for your time and consideration on this matter.
