Measure, Appointment or Topic: SB59

Hon. members of Committee on Housing and Development:

Thank you for the opportunity to comment on SB 59. It is refreshing to see a sensible bill addressing a real issue. There is an old axiom to the effect that if you take a person's garden you have taken the last thing of value from them. It was in reference to coal mines in Appalachia and the owners of the land that were ruined by extraction of the coal, but still speaks to some of the elitism we see in today's society.

Homeowner's groups should not have the right to suppress wholesome practices that do not damage them. Please support Sen Hayden's sensible bill.
