RE: Testimony in Support of HB 2792

To the House Committee on Labor and Workplace Standards:

Hospital systems should be required to reveal the details of their spending during labor strikes. It is unfair that nurses are blamed for draining resources during a strike when the public doesn't have information about the hospital's spending. Oregonians deserve to know how this money is being spent.

Thank you for the opportunity to provide comment and I look forward to your support,
Sarah Rodes
