

Submitter: Trisha Spiering

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2232

Honorable co-chairs and members of the committee,

My family have enjoyed riding the Oregon dunes for many years and we hope you'll vote in support of HB 2232.

We want future generations of responsible riding families to enjoy growing a family in this great activity, like we have. If noise levels can't be enforced, or even explained, the very few riders among us who ride with modified, or even no mufflers will threaten the sport for all of us. This one, simple step will allow the people we trust to start work on preserving our places to ride.

Thank you,  
Trisha Spiering
