

Submitter: Emmett Frison

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I totally support all-terrain vehicles be allowed to operate on Oregon highways, particularly in rural and forested areas. As an older person, enjoying the outdoors is becoming more difficult. Many outdoor activities I like would be more enjoyable and easier using all-terrain vehicles. All-terrain vehicles, do to their size and what they are designed for, can negotiate many rural roads better than typical, everyday vehicles.

Thank you
