

Submitter: Larry Wycoff

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2460

This proposed bill should be amended to include municipal courts that aren't courts of record and should allow broader appeal rights for defendants. Our Justice and municipal court system isn't remotely fair or transparent and we need better safeguards.

The legislature should also expand the judicial ethics to justice courts and municipal courts. There's no oversight of municipal court and justice court judges.
