

Submitter: Randy Lill
On Behalf Of: IAMW24
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB916

I am a business representative for the IAM. This bill would help my members greatly. The hardest obstacle unions face during negotiations is the ability to strike, and the financial hardship this causes for working class families. Passing this bill would alleviate some of the financial burden of those on strike. Passage would allow hard working union members the opportunity to concentrate on the actual strike issues instead of trying to outlast big corporations while trying to keep food on the table and a roof over their heads.
