

Submitter: Scott Hubbard

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

As a side by side owner who has lived in Oregon for 40yrs fully support HB3155 for safe a responsible person operation of OHV vehicles on state roads. Many other states have allowed operations of OHV vehicles without major issues. As a member of the OHV community for 30 years I expect each other to be responsible when doing so. If a common off road motorcycle can have all the equipment needed and be operated on state roads legally so should the side by side.
