Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

I strongly support this legislation, as it would allow responsible riders like myself to operate dirt bikes on forest service roads, not just designated ATV or single-track trails. Expanding access to public lands in a controlled manner—while ensuring vehicles meet safety standards and adhere to seasonal road closures for weather and wildlife protection—promotes recreation, tourism, and responsible land use. This change would align Oregon with other states that successfully allow mixed-use travel on public roads while maintaining environmental and safety considerations.
