On Behalf Of:  
Committee: House Committee On Labor and Workplace Standards  
Measure, Appointment or Topic: HB2792

To who it may concern:

It is essential to know how much is being spent to silence decent requests for improvements by unionized healthcare workers. Tina Kotek can hear “Prov moved \$25 million into the contracts” and think it is substantial, or recognize it is less than 2 weeks of the cost of the strike, which Prov has happily been setting on fire without feeling the need to draw an end to the madness. How can we justify giving public funding to a giant corporation that doesn’t disclose how much of that funding they are using to silence our workers, spending money on out-of-state scabs to teach their union workers a lesson?!?

Please bring transparency to the process! Support HB 2792.
