

Submitter: Donald Drozdenko

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I am in total support of HB 3155 which will permit the Class I, III and IV all-terrain vehicles on highways that are not interstate highways, provided the all-terrain vehicles meet equipment standards and are properly registered. We need this opportunity considering the amount of the all-terrain vehicles in our area.

This HB 3155 is very appropriate, especially for Florence, Oregon. The author, Frank Herbert, was inspired by the Florence sand dunes to write his sci-fi novel "Dune" which has been made into several movies. What a tribute! I can almost see a sand worm tunneling under the dunes....

HB 3155 would open many beautiful areas to visit which cannot be accessed with normal automobiles.
