Topic: SB769

Dear, committee chairs! I urge you to move this legislation through, let rural county's manage their cougar populations in the best possible way for their counties. I feel this would be a benefit to the cougars themselves, by lowering the population and keeping them from running into each other And fighting over territory or being pushed into populated areas where there are more interactions with people, and livestock, etc. This would benefit the other wildlife in those counties, people, farmers, and ranchers in the counties as well.
