Measure, Appointment or Topic: HB3155

I believe this is a good revenue generating opportunity for Oregon to jump on board in allowing atv/Utv on certain roads thru out Oregon.

As an Oregon utv owner I have plates to allow my utv on certain roads in these states. I pay for the plate and tabs each year. Current here in Oregon I pay for an ORV sticker that's good for 2 years for my utv.

So what I'm saying I spend my money in these states when I could be spending it here in my state.

I do believe a horn, rear view mirror, turn/brake signals, and proof of insurance should be required.
